

PATIENT INFORMATION & CONSENT FORM

(Clinical Limitations & Risk Acknowledgment)

Patient Name: Gary Dawson

Passport Number: _____

Date: _____

Clinic Name: OrbisMed

Clinical Information

The patient has presented to our clinic seeking aesthetic and functional dental treatment.

Following clinical and radiographic examination, it has been identified that:

- The patient has previously placed dental implants from another clinic.
- The brand and system of these implants are unknown, and no official documentation has been provided.

Treatment Limitations

- Due to the unknown implant brand/system, it is not possible to proceed with a titanium bar restoration in the upper jaw, as compatibility and safe prosthetic connection cannot be ensured.
- Additionally:
 - One of the anterior implants in the upper jaw has failed.
 - This failure is related to previous treatment carried out at another clinic and is therefore outside the responsibility of OrbisMed.

Patient Name & Surname: _____

Signature: _____

Risks & Warnings

- There is a significant distance between the existing implants in the upper jaw, particularly in the anterior region.
- This condition may result in:
 - Increased mechanical stress on the prosthesis
 - High risk of fracture or structural failure

The patient has been clearly advised that:

- Excessive biting force on the upper anterior region must be avoided
- Failure to follow these instructions may lead to damage or breakage of the prosthesis

Liability Statement

The patient acknowledges and agrees that:

- OrbisMed is not responsible for:
 - Any previously placed implants or their failure
 - Complications arising from unknown implant systems
 - Structural or mechanical risks caused by implant positioning or spacing from prior treatments

Patient Acknowledgment & Consent

I, the undersigned patient, confirm that:

- I have been fully informed about my current clinical condition
- I understand the treatment limitations and associated risks
- I acknowledge that these limitations are due to previous treatments performed outside OrbisMed
- I agree to follow the instructions provided by the clinic
