

ORBISMED

Understanding Dental Insurance and Our Commitment to Your Care

At our practice, we strive to provide the highest quality dental care, prioritizing your oral health and well-being. While we assist with insurance by completing and filing your insurance forms as a courtesy, it's important to understand that our treatment recommendations and the quality of care we provide are based solely on your dental needs—not on the terms of your insurance coverage.

The Reality of Dental Insurance

"Dental insurance" functions more like a dental benefit plan. The complexities of dental insurance, coupled with limited information from insurance companies, often lead to confusion about coverage. This is because dental insurance is a contract between your employer and the insurance company, not between the dental office and the insurance company. The benefits you receive are determined by this contract, and typically aim to provide only basic care for specific services, based on cost and negotiated agreements.

The services covered by your insurance are selected without consideration for your specific dental needs. As a result, some necessary or desired treatments—such as cosmetic procedures, implants, or occlusion adjustments—may not be covered. Although some insurance plans are starting to include implant coverage, these services are generally excluded because they don't align with the insurer's goal of limiting costs to basic care.

Payment and Coverage Limitations

Insurance policies often include dollar amount limits for coverage within a calendar year. Once this limit is reached, no further services will be covered, regardless of how critical they are to your dental health. Additionally, the percentages and "usual and customary rates" (UCR) determined by your insurance carrier are based on premium payments, not on the actual cost or quality of care provided. These rates can vary widely and may not reflect our fees, which are based on the time, effort, and expertise required to deliver optimal care.

Your Responsibility and Our Policies

We allow **60 days** for patients to inform us of any requests or requirements from their insurance company regarding their treatment. Our ability to assist with insurance-related documentation or inquiries may be limited after this period. To ensure a smooth process, please notify us promptly of any communication from your insurer.

Remember, dental insurance was not designed to cover all dental expenses, and co-payments or out-of-pocket costs are often part of the plan. While insurance companies aim to minimize their expenses, our focus remains on your health. We will never compromise your care due to insurance constraints.

Our Commitment

Our goal is to help you achieve and maintain optimal dental health. We are here to guide you through the insurance process and to answer any questions you may have. Although dental insurance continues to evolve with frequent changes aimed at cost reduction, we remain dedicated to providing the quality care you deserve.

If you have any questions about your dental insurance or treatment options, please don't hesitate to ask. We are here to support you every step of the way.

We recommend that patients communicate directly with their insurance company using the template provided below. This is a general guideline to help you structure your communication effectively. Please note that the template is only a suggestion, and you should tailor it to fit your specific situation or the requirements of your insurer.

Mail Subject: Request for Dental Insurance Claim Processing
<i>To Whom It May Concern,</i> I am writing to request reimbursement for medically necessary dental treatments I recently received at OrbisMed Clinics located in Antalya, Turkey, during my visit from [Start Date] to [End Date]. The procedures were essential to address [specific dental issues, e.g., severe tooth loss, periodontal disease], as outlined by my treating dentist. These treatments were performed after a detailed clinical evaluation, which included diagnostic imaging. Attached, please find the following supporting documents for your reference: 1. Detailed invoice from OrbisMed Clinics. 2. Treatment plan and summary of services provided. 3. Letter from the treating dentist confirming the medical necessity of the procedures. 4. Copies of diagnostic reports and images (if applicable). I kindly request that my insurance policy's terms regarding overseas dental treatment be applied to this claim. Please let me know if you require any further documentation or information to process this dental insurance claim. Thank you for your attention to this matter. I look forward to your prompt response. Sincerely, Patient's Full Name] [Policy Number or Insurance ID, if applicable] Attachments: Invoice, Clinical Necessity, Treatment Plan, X-Ray imaging Some insurance companies/policies will request you to directly forward a mail we sent you back to them, in such cases please forward the e-mail we sent you with the documentation to the insurer as well as this e-mail template.

For our patients with overseas dental insurance, whenever applicable, we will provide the Clinical Necessity Letter, Treatment plan, X-Ray imaging as well as other required details in a single PDF signed, certified and locked by OrbisMed clinics via e-mail.
