

TREATMENT WARRANTY & AFTERCARE POLICY

Coverage, Duration & Limitations

Warranty Periods

ORBISMED Clinics provides different warranty periods depending on the type of treatment performed. General dental treatments are covered by a **1-year warranty**. Crowns are covered by a **5-year limited warranty**. Warranty periods begin after completion of the final treatment.

1-Year Warranty – General Treatments

If a problem occurs within the first 12 months and is clinically verified as a clinical error or laboratory defect, ORBISMED Clinics will provide corrective dental treatment, **hotel accommodation for one visit only**, and **clinic transfer services including hotel-clinic and airport transfers**. Flight tickets and any other travel expenses are **not covered**.

After the First 1 Year

After 12 months, the treatment is considered **clinically successful and completed**. If any issue arises after the first year, the patient will be responsible for **laboratory costs (charged at current market prices)**, hotel accommodation, transfers including airport transfers, and all travel expenses.

5-Year Limited Warranty – Crowns Only

The 5-year crown warranty covers **proven laboratory or manufacturing defects only**. It does not cover patient-related factors or biological changes. In such cases, laboratory costs will be charged at the **current price valid on the day of treatment**, regardless of the warranty period.

Warranty Exclusions

The warranty does not cover issues caused by bruxism, failure to use a prescribed night guard, poor oral hygiene, smoking, alcohol consumption, trauma, accidents, biological factors, temporary prostheses, composite bonding, or treatments modified or performed by third-party clinics.

Legal Notice

The warranty does not guarantee lifetime success. Biological and patient-related complications are considered **clinical risks**, not clinical errors. Any intervention by another clinic immediately **voids all warranties**.
