

TREATMENT PLAN – OPTION 2

Patient Name: Mr Bell

Practice: Euro Dental Care

368 Court Oak Rd, Harborne
Birmingham
B32 2DY
Tel: 0121 428 2999

Implant & Tooth Preservation Rehabilitation Plan

Upper Arch

Phase 1 – Extractions

- Removal of upper right 5
- Removal of upper left 6

Phase 2 – Implant Placement

- 2 implants in the upper right posterior region
- 2 implants in the upper left posterior region

Phase 3 – Implant Restorations

- Two 3-unit implant-supported bridges (upper right and upper left)

Phase 4 – Endodontic & Restorative Treatment

- Root canal treatment on upper right 2 and upper right 3
- Crown placement on anterior tooth where required for structural support and aesthetics

Objective:

Preserve strategically important upper teeth while restoring posterior support and improving anterior aesthetics and function.

Lower Arch

Phase 1 – Extractions

- Removal of loose lower molar teeth

Phase 2 – Implant Placement

- 2 implants in the lower left posterior region
- 2 implants in the lower right posterior region

Phase 3 – Restorations

- Two 3-unit implant-supported bridges (lower left and right posterior segments)
- Composite bonding for lower anterior teeth to enhance shape and appearance
- Custom gum shield/night guard for protection of lower teeth and restorations

Objective:

Stabilize posterior occlusion, preserve anterior teeth, and improve aesthetics while protecting long-term implant success.

Benefits of Option 2

- Preserves healthy natural teeth where possible
 - Restores posterior support with fixed implant bridges
 - Strengthens anterior teeth with root canal and crown treatment
 - Improves lower anterior aesthetics
 - Protective night guard to increase restoration longevity
-

Informed Consent

I confirm that the proposed treatment plan has been fully explained to me by the clinical team at Euro Dental Care.

I understand:

- The nature and purpose of the recommended treatment
- The expected benefits and outcomes
- The potential risks and complications, including but not limited to infection, implant failure, nerve disturbance, restoration fracture, chipping, and the possible need for future maintenance or replacement
- That no dental treatment can be guaranteed for lifetime longevity
- The alternative treatment options available to me, including the option of no treatment
- The estimated costs and staged payment structure (if applicable)

I have had the opportunity to ask questions, and all of my questions have been answered to my satisfaction.

I understand that treatment plans may need to be modified if additional findings arise during the course of treatment.

By signing below, I confirm that I give my informed consent to proceed with the selected treatment option.
