

DENTAL FILLING

INFORMED CONSENT FORM

Patient Full Name: _____ **Date:** _____

I understand that dental fillings are placed to restore teeth affected by decay, fracture, or wear and to restore function and structure.

I understand that during the removal of decay or old restorations, additional decay or structural weakness may be discovered.

I acknowledge that dental fillings may cause temporary sensitivity to temperature, pressure, or biting.

I understand that some teeth may require further treatment such as root canal treatment or crown placement if symptoms persist or if the tooth structure is compromised.

I acknowledge that fillings are subject to wear, discoloration, leakage, fracture, or loss over time depending on oral hygiene, bite forces, diet, and habits such as grinding or clenching.

I understand that the lifespan of a filling varies and that replacement may be required in the future.

I acknowledge that additional treatment or replacement of fillings may involve additional fees not included in the initial treatment plan.

I acknowledge and accept that these outcomes are considered clinical risks and complications, not clinical errors, negligence, or improper treatment.

CONSENT CONFIRMATION

I confirm that I have read and understood this document in full, had the opportunity to ask questions, and voluntarily consent to receive dental filling treatment under the conditions stated above at OrbisMed Clinics. I confirm that a copy of this informed consent has been provided to me.
