

PATIENT ACKNOWLEDGEMENT & CONSENT FORM

Regarding Crown Treatment on Natural Teeth with Limited Bone Support

Clinic Name: OrbisMed Clinics

Patient Name & Surname: _____

Patient Passport Number: _____

Date of Birth: _____

Treatment Provided: 21 Crowns on Natural Teeth

Clinical Information & Acknowledgement

I confirm that I have been fully informed by the clinical team at OrbisMed Clinics about my current oral and bone condition.

I understand and acknowledge that:

Due to severely limited bone support, the clinical recommendation provided to me was a zygomatic implant-based treatment, as this option offers the most predictable long-term outcome in my case.

I have voluntarily chosen not to proceed with zygomatic implant treatment at this time and have instead requested treatment with crowns on my natural teeth in order to continue using my own teeth for as long as possible.

I have been clearly informed that, given my current bone condition, there is a significant risk that one or more of my natural teeth may weaken, fail, or be lost over time, potentially within 2–5 years, due to biological reasons beyond the clinic's control.

Signatures,

Patient Name: _____

Patient Signature: _____

Date: _____

Guarantee Limitation Acknowledgement

I fully understand and accept that:

The guarantee provided by OrbisMed Clinics applies only to the crowns themselves, provided that the supporting natural teeth remain healthy and functional.

If any natural tooth:

is lost, requires extraction, fails due to bone loss, periodontal disease, root fracture, infection, or any other biological reason

the crown guarantee for that tooth becomes automatically void, as the underlying natural tooth support no longer exists.

The clinic does not provide any guarantee for:

the long-term survival of my natural teeth

bone-related or periodontal changes

biological deterioration unrelated to crown workmanship or materials

Future Treatment Understanding

I acknowledge that if my condition changes in the future, I may require alternative treatments, including implant or zygomatic implant solutions, which would be assessed and quoted separately at that time.

I confirm that all of the above information has been explained to me clearly, that I have had the opportunity to ask questions, and that I proceed with this treatment fully informed and of my own free will.
